

Business & Information Technology

The Business & Information Technology courses in middle school provide students with hands-on instruction utilizing basic technology skills. Students learn to develop multimedia presentations, code simple programs, animations & websites, explore emerging technology, and explore a variety of careers through project based learning.

A few of the Platforms used within the classes include:

Google Classroom,
Google, MS Office,
Blackboard Collaborate,
Scratch, Typing Club,
Peardeck, Code.org

Welcome!

Business & Information Technology!

MORE INFORMATION MAY BE FOUND ON THE SCHOOL WEBSITE or Email the Teacher!

add to cart

- Computer Solutions: MS Office, Google Apps, AI Image Creation, & More!
- Coding 1: Block coding, HTML, CSS, JS
- Coding 2: Computer Science Instruction for Drawinf with JS & Python

Have fun while gaining!

All About Mars

Mars is a very *intriguing* planet and is similar to Earth. Mars is a cold desert world. It is half the size of Earth and is sometimes called the Red Planet. There is a lot to learn about Mars. This site will tell you **everything** you need to know about Mars.

Table of contents

- [Distance from Sun](#)
- [Diameter of Mars](#)
- [Fun Facts about Mars](#)
- [Mars Sites about Mars](#)
- [Moons of Mars](#)
- [Mars Orbit](#)

Welcome!

CODING

LOOK AT SOME OF OUR ACTIVITIES!

Scratch programming environment showing a complex script with various blocks (Motion, Looks, Sound, Events, Control, Sensing, Operators, Variables, My Blocks) and a red maze on the right side of the stage.
